Our Latest Project — How We Lit Up a Luxury Villa in Ahmedabad with Luminac Lighting

Great lighting doesn't just brighten a room — it completely changes how a home feels.

We recently completed a full lighting project for a luxury villa in Shilaj, Ahmedabad. The client wanted their home to feel warm, premium, and visually stunning without being overdone. That's exactly what we delivered — using Luminac's premium lighting range.

Here's what went in:

✅ Trimless LED downlights in the master bedroom & hallways — clean, seamless finish
✅ Crystal chandelier in the double-height living room — bold centrepiece, perfect scale
✅ COB recessed lights in the kitchen — bright, shadow-free, ideal for cooking

✅ Warm-white wall lights along the staircase — elegant and practical
✅ Bollard lights & outdoor wall lights around the garden — weather-proof and beautiful
✅ In-ground burial lights on the driveway — the kind of finish you only see in 5-star properties

Every fitting was planned room by room. Our team visited the site, studied the architecture, and created a layout that matched the interior perfectly. No guesswork. No compromises.

This is what makes Light Bliss different from any other lighting shop in Ahmedabad — we don't just sell lights, we design your space.

📍 Serving across Ahmedabad.
